

CS-100
Assignments
Windows 95

The workbooks for this class contain exercises which must be completed individually by each student. I suggest making a photocopy of the exercises first (don't write in your book) and work the problems out on the photocopies, and hand them in on the due date. This way, if you make mistakes, you can correct your work or easily start over.

Assignment #1

Due: Tue. December 8th, 1998

Read the first two modules from the Windows 95 text and perform the following assignments:

Win-40: 5 Multiple Choice & 5 Short Answer Problems

Win-60: 10 Multiple Choice & 10 Short Answer Problems

Assignment #2

Due: Tue. December 15th, 1998

Read the next three modules from the Windows 95 text and perform the following assignment:

Win-84: 10 Multiple Choice Problems

Win-108: 10 Multiple Choice & 10 Short Answer Problems

Win-133: 10 Multiple Choice & 10 Short Answer Problems
