*Text:* *Macromedia Dreamweaver MX: Hands on Training*, Lynda.com/books, 2003, ISBN 0-321-11271-7

*Goals:* This hands-on course is designed for beginners in web site design. The course will cover how to use HTML to create web pages as well as how to incorporate Cascading Style Sheets (CSS) and JavaScript. You will complete a web site from start to publishing in on the Internet.

*Grading\*:*

Assignments	40%
Weekly Quizzes	30%
Final (week 11)	30%

\* No incomplete grades will be given without very extenuating circumstances.

*Attendance:* Attendance may be taken at each lecture. Exam and Quiz material will come from both the textbook and classroom discussions.

*Class Sharing:* You are encouraged to share information found in newspapers, books, periodicals, on the web, etc. related to web site design issues. You can go as far as showing another student the code you used to produce your results. However, you are not to give your work to other students. If you use content from another source, you must reference that source in your work. Any attempt to pass off someone else's work as your own is plagiarism and is subject to academic discipline.

*Late Policy:* Assignments are due at the beginning of the class period that was designated as their due date. A 10% penalty will be assessed for each day an assignment is late.

*Chronology:* The topics covered in this course will include:

Hypertext Markup Language (HTML)  
Cascading Style Sheets (CSS)  
JavaScript  
DreamWeaver MX
